

## **Moosehaven Report for PMA State Convention**

To our honored guests, members of the State Board, and to my brothers all, I bring you greetings from Moosehaven, the city of contentment.

Moosehaven is retirement at its best. It is an active retirement community where residents enjoy a wide variety of activities.

Prior to our Mid-Year Conference, Moosehaven went into lockdown brought on by COVID-19. John Capes and Helen Taylor met with the residents to explain the protocols that were put in place and impress upon them the importance of social distancing and hand washing.

They began screening all visitors and canceled most of the off-campus trips and all community and Fraternal events. All residents are receiving their meals in their apartments and the campus has been closed to all non-essential deliveries.

John Capes had announced his retirement before all this turmoil started and wrote his last Just John newsletter. Helen Taylor has assumed the position that John Capes held before his retirement. She was the Chaplain before taking this new position. We all wish her well as the new Moosehaven Administrator.

We still offer two admission programs, the Traditional Retirement Program and Brandon Place, to meet the financial needs of the members. One thing to remember is that the Traditional Plan requires a minimum of 15 years of service as a Moose Member.

I encourage each of you to actively promote Moosehaven and, if you are eligible, to consider Moosehaven for retirement. The benefits are vastly inviting and, truly immeasurable.

Please let me know if I can provide additional information to you. I am here to serve you.

Respectfully,  
Charlie Staley  
Moosehaven Chairperson  
Admissions Counselor
